

SMARTWATCH BUYING GUIDE

OPERATING SYSTEM:

There are three main choices of operating system – Apple watch OS, Android wear and Tizen

BATTERY-LIFE:

Full-featured smartwatches tend to need charging every day or so.

DISPLAY:

Most smartwatches these days use a colorful LCD screen or AMOLED display.

INTERFACE:

While opting for a touch screen on your smartwatch would seem like a no-brainer

DESIGN AND PERSONALIZATION:

Most smartwatches today offer plenty of customization

FITNESS FEATURES:

As fitness trackers continue to attract attention, smartwatch makers are getting in on the action by integrating activity-monitoring functions.

GPS:

Some smartwatches also have GPS

SPLASH/WATER-RESISTANT:

You most likely want to wear your smartwatch all day, other than when it is charging.

CHARGING:

Some smartwatches come with convenient wireless chargers.
